EDGAR RICE BURROUGH'S

TARZAN and TARZAN'S SON 'KORAK'

Deep in the heart of Wildest Africa...

Father & Son soar and swing from tree to tree like creatures of the jungle. Their tall, lithe figures are familiar to both men and beasts. And the more savage and brutal among them prefer to avoid the Lord of the Jungle and his son. In their hearts and minds, they hold the strength and wisdom of the jungle. Follow their adventures every fortnight.

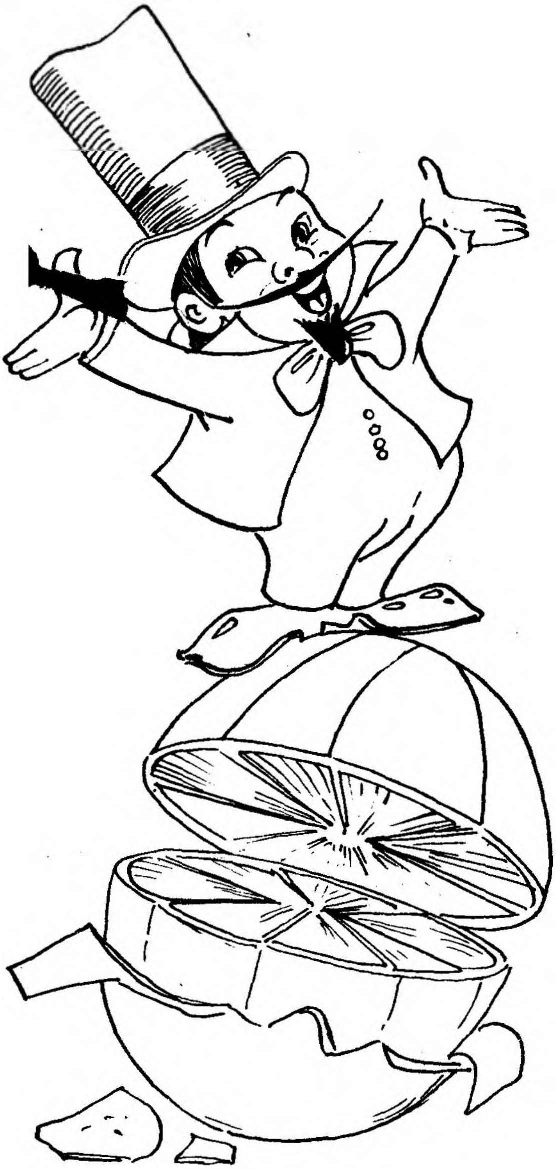
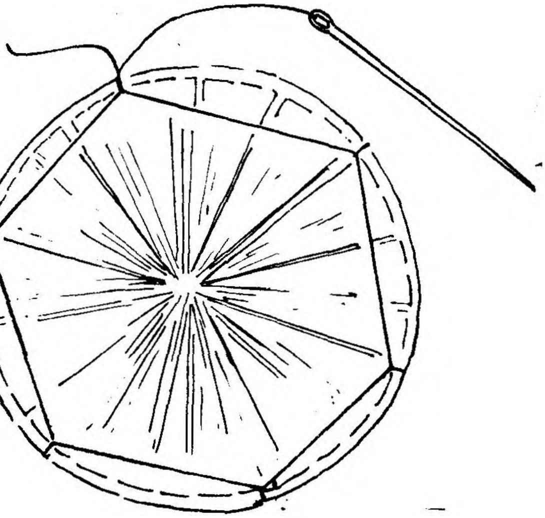
The Magic Orange

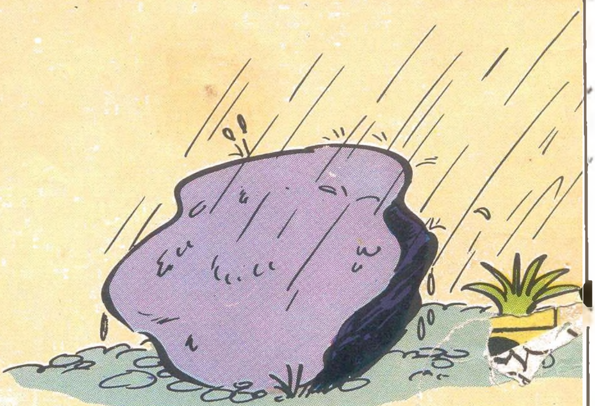


Baffle your friends. Get them to peel an orange. When they have done this the orange is mysteriously found to be cut in half. How's it done? Using a needle and cotton, push the needle through the orange A–B (as diagram), then B–C and so on until needle comes out through A. Holding the two ends of the cotton, pull hard and the cotton will come out cutting the orange in half.



SAND

Sand is one of the most common substances found on earth. In course of time rocks exposed to wind and rain gradually break up to form small particles called sand.



Sand has inumerable uses. Such as glass, cement, sand paper, Sand is also used for Filtering water.
